

## INITIAL PAGE:

The screenshot shows a web browser window with the address bar displaying "127.0.0.1:5500/search.html". The page features the GitHub logo and the heading "Choose the search option". Below the heading, there are two input fields, both containing the text "USER NAME". To the right of the first input field is a radio button labeled "USER NAME". To the right of the second input field are a radio button labeled "REPOSITORY" and a text input field labeled "REPOSITORY". A "SUBMIT" button is located at the bottom left of the form area. The browser's taskbar at the bottom shows various application icons and the system clock indicating 10:44 on 02-05-2021.

## 1.USING USERNAME:

This screenshot shows the same GitHub search page as the initial page, but with the username "jishithachowdary" entered into the first input field. A dropdown menu is visible below the input field, showing a green circular profile picture and the text "USER NAME". The "USER NAME" radio button is now selected. The "REPOSITORY" radio button and its corresponding input field remain unselected and empty. The "SUBMIT" button is still present at the bottom left. The browser's taskbar at the bottom shows the same application icons and system clock.
